

## PRESS RELEASE

# ABEC Announces Key Organizational Changes to Support Global Growth

**Bethlehem, PA USA (December 15, 2016)** ABEC is pleased to announce the addition of Sally White as Vice President, Biopharm Services, responsible for global customer service. This position was previously headed by Richard Bonyun who has accepted the role of Executive Vice President and Managing Director, Europe.

Sally has joined ABEC with 25 years' experience in business development and the delivery of critical response services globally. Over the course of 18 years she held a number of leadership roles at Smiths Group PLC including Vice President Global Services where she was responsible for leading a team of over 500 service professionals in delivering to the military, government and commercial customers. Her experience includes international assignments in Europe, Asia and the Americas. Her services career includes tenures in both the semiconductor and pharmaceutical sectors.

Richard has been with ABEC for over fourteen years and has made critical contributions in establishing and leading ABEC's global service and business development efforts. His experience in building and running operations in Europe is extensive, including prior to ABEC in the semiconductor industry.

***Commenting on today's announcement ABEC's CEO Scott Pickering said: "ABEC's unique ability to deliver custom, turn-key equipment and services across the entire lifecycle of a biopharmaceutical manufacturing process is driving significant growth. I am pleased to welcome Sally and appreciate Dick stepping into a critical role. I am confident that their leadership will continue to add value for our customers."***

## About ABEC

Since 1974, ABEC has been a leader in delivering integrated process solutions for manufacturing in the biopharmaceutical industry. Many of today's leading antibody, vaccine, and recombinant protein therapies are manufactured by processes and equipment engineered, manufactured, installed and serviced by ABEC, and a majority of the world's pharmaceutical and biotech companies are ABEC customers. ABEC's unique value is based on long experience, complete in-house capabilities, a custom, flexible approach, and long-term credibility. Whether building new capacity or improving existing facilities, ABEC's turn-key solutions reduce overall cost and time to market while delivering maximum productivity.
