ABEC will be
exhibiting at the
ISPE Annual Meeting
& Expo 18—21
September 2016 at
the Atlanta Marriott
Marquis!

Stop by *Booth #23* to
learn how ABEC is
revolutionizing
Project Delivery and
Single Use
implementation.

PAUL KUBERA, ABEC's VP
of Process Technology, will be
presenting in a Control Strategy
Innovation Forum on
Upstream Bioreactor Modeling
Approaches: Lab to Large Scale
on Monday, 19 September at
4:15 PM

Paul has 35 years of experience
in process technology, project
management and product devel-
opment. He has a strong back-
ground in equipment model-
ing to insure process perfor-
mance and reliability. He is an
active member of ASME BPE
sub-committees and tasks
groups, and teaches technology
transfer courses on bioprocess
equipment design. Paul holds
B.S. and Master's Degrees in
Chemical Engineering from
Cornell University.

About ABEC

Since 1974, ABEC has been a leader in delivering integrated process solutions for manufacturing in the biopharmaceutical industry. Many of today's leading antibody, vaccine, and recombinant protein therapies are manufactured by processes and equipment engineered, manufactured, installed and serviced by ABEC, and a majority of the world's pharmaceutical and biotech companies are ABEC customers. ABEC's unique value is based on long experience, complete in-house capabilities, a custom, flexible approach, and long-term credibility. Whether building new capacity or improving existing facilities, ABEC's turn-key solutions reduce overall cost and time to market while delivering maximum productivity.
